

MESS

# CLIENT MEETING 14/02

---

14 FEB 2022 / 5:00 PM / GOOGLE MEET

## ATTENDEES

Keira, Shaya

Clients: Lukman

Other teams: Ramisa, Matt

## AGENDA

### New Business

- Questions about new details
  - In the reports he has a limit, what is this referring to?
  - In the reports submission, he has pass/fail what is that referring to?
  - Who are the reports for (like who should be able to see them)? Are they like forms for the employees to fill out? Who should have access to the filled out form?
- Inventory
  - Search bar for inventory items
  - Inventory tabs
    - With subheaders
    - Sub subheaders
  - Should be able to update the table when used inventory item
  - The inventory table should be visible to lab workers
  - Scan barcode on chem
    - Go to the page to mark how much used
    - Calculates how much less
  - Page to show chems that are running low (  $\leq$  item reorder quantity)
- New Stuff

- Results in table should be a link to a file
- Pass/fail based on test results
- Test results are all unique
- Invoice generated from that
- Limit - limit for test to pass/fail new thing for test table
- PassFail - does it pass the limit - set by user
- Filled out by any user
- Head of lab will approve
- Only lab users see this
- Lab users only have access to their only lab stuff
  - we will have to add this to the user table

## NOTES

- Team 0: inventory UI, defining models, sample pages, distribution set, shopping page
- Team 1: finished samples, client-side of samples, bug fixes, barcodes
- Team 2: inventory start, backend stuff for distribution and inspection, 1 teammate in a different time zone right now, a bit confused on inventory step (want more details)

## ACTION ITEMS

1. Start working on the next steps

## NEXT WEEK'S AGENDA
