MESS

MEETING NAME 09/30

30 SEPTEMBER 2021 / 4:00 PM / GOOGLE MEETS

ATTENDEES

Sayo

Shaya

Will

Keira

AGENDA

Last Meeting Follow-up

1. Client Meeting

    a. Interconnected modules with one base from each team

    b. Can connect modules to other teams bases (JOSN???)

    c. MVP

2. Meeting with Prof

    a. Want one independent things each

3. Ideas for Tech Stack?

    a. Database: could use COSC304 db, have no control, even if just initially; might need configs later; maybe docker or local thing at first

        i.   Might need to be re-added

        ii.   https://developer.ibm.com/tutorials/docker-dev-db/

        iii. Use docker

           iv.   MySQL

    b. Docker: check!

           i.   https://dockerize.io/guides/python-django-guide

    c. Avoid cloud stuff!

    d. Python?

    e. Django

           i.   https://scotch.io/tutorials/build-your-first-python-and-django-application#toc-creating-an-app

New Business

- ?

NOTES

-
